

# What impact will you make?

deloitte.hu

Deloitte is one of the world's largest professional services organization, offering a wide range of audit, tax, consulting, financial advisory and data analytics services.

Data Analytics is the practice of using data to drive business strategy and performance. It includes a range of approaches and solutions, from looking backward to evaluate what happened in the past to looking forward to do scenario planning and predictive modelling.

Data Analytics spans all of the Deloitte functional businesses to address a continuum of opportunities in Information Management, Performance Optimisation and Analytic Insights. By understanding decision-makers' roles to maximise analytics value, Deloitte turns everyday information into useful and actionable insights.

Due to our continuing expansion, we are looking for an ambitious
