

# IT PROJECT MANAGER INTERN

casesolvers

Do you believe in the determinative power of education? Do you believe that even the relatively small group of 34 young professionals can make a huge difference? Do you think that one is never too old or smart enough to develop new skills?

If you love the thought of managing bigger projects independently, and if you want to be the part of a dynamically growing, highly professional community, apply.

## What we would like you to do

- ✓ Maintain and improve our many websites
- ✓ Prepare wireframes, work on UX topics
- ✓ Communicate and work with clients
- ✓ Prepare customized content
- ✓ Managing web development projects
- ✓ Working on the launch of our own skill assessment software

## You are our dream candidate, if you

- ✓ are a master of getting things done
- ✓ are comfortable with working independently
- ✓ are hands-on and creative
- ✓ are a bit of a geek, but also like to talk to people
- ✓ are comfortable with working in English
- ✓ have experience in the field of project management
- ✓ possess excellent communication, presentation, collaboration, and interpersonal skills
- ✓ are at least in the 2nd year of your BA in Business IT
- ✓ Have an active student status

## We offer..

- ✓ steep learning curve
- ✓ real life responsibilities from day 1
- ✓ a friendly environment and a lively community life (due to Covid-19 only online at the time)
- ✓ open ears for your smart suggestions
- ✓ flexibility, an adult position (you can define your own working hours as you find the most fit your life)
- ✓ opportunity to work towards skilling up people & society
- ✓ competitive salary
- ✓ an enthusiastic community that works for skilling up people & society

Sounds good? :)

We are looking forward to reading your CV.
