

Do you believe in the determinative power of education? Do you believe that even the relatively small group of 34 young professionals can make a huge difference? Do you think that one is never too old or smart enough to develop new skills?

If you want to be the part of a dynamically growing, highly professional community, apply.

What we would like you to do

- ✓ Prepare wireframes, work on UX projects
- ✓ Develop our many websites
- ✓ Create user-centered designs and visuals by understanding business requirements
- ✓ Consult with other IT projects about our developing workflow
- ✓ Communicate with business stakeholders
- ✓ Possess excellent communication, presentation, collaboration, and interpersonal skills

You are our dream candidate, if you

- ✓ are a master of getting things done
- ✓ are comfortable with working independently
- ✓ are hands-on and you can understand online user behaviour
- ✓ are a bit of a geek, but also like to talk to people
- ✓ are comfortable with working in English
- ✓ are at least in the 2nd year of your BA
- ✓ can start January 2021 the latest, and work at least 20 hours per week
- ✓ have an active student status

We offer..

- ✓ Steep learning curve
- ✓ Real life responsibilities from day 1
- ✓ a friendly environment and a lively community life (due to Covid-19 only online at the time)
- ✓ Open ears for your smart suggestions
- ✓ Flexibility, an adult position (you can define your own working hours as you find the most fit your life)
- ✓ Open ears for your smart suggestions
- ✓ Competitive salary
- ✓ an enthusiastic community that works for skilling up people & society

Sounds good? :)

We are looking forward to reading your CV.
