Position description, tasks

We are looking for…
…talents who embrace new technologies and are continuously learning, graduates who are curious to the world and the opportunities it has to offer. Vodafone is a place where you can bring your whole self to work as you start your career.

Join us for this 2-year-long journey and make a difference in 4 areas of our business!

What's in it for you
- Build expertise in your chosen area
- Try yourself in 4 rotations - **up to 4 different areas** during the program
- Work on strategic projects that **shape the future and have an impact on your environment**
- Have business exposure and accountability **from day one**
- Get the **maximum out of yourself** personally and professionally

Technology
Vodafone is not just a Telco, it's a Tech Comms company. You will be at the centre of Vodafone's technology strategy & implementation. This will cover a wide range from technology designs to deliver **Networks** and **IT** through to **Security**, **Big Data** and beyond!

All this is to ensure we distribute world-leading technology to empower Enterprise and Consumer customers to be confidently and securely connected. Vodafone has become more than just a mobile service provider. We're heavily invested in **5G, fixed line, Internet of Things, AI and Cloud & Hosting**. All of which you will be able to explore. You'll get to unleash your ideas and apply them to real business projects that you can own from day one.

Areas you could find yourself working in:
• IT
• Governance, Quality & Partner Management
• Cyber Security
• Technology Enterprise Services
• Network Development
• Portfolio & Programme Management
• Technology Operations

What we offer

• Competitive salary (optional salary increase based on performance assessment)
• Cafeteria package
• Laptop & mobile phone (with RED unlimited voice and data tariff package)
• Job opportunity abroad after 2 years
• Life & accident insurance
• Other discounts (e.g. sport opportunities)
• Flexibility: home office opportunity & flexi office environment
• Buddy and mentor who will support you

Sounds exciting? If so, we would love to hear about you!

Selection process: 100% virtual
Start date: September 2020
Duration of Programme: 2 years (you will receive a permanent contract, after the 2 years you will be supported to find your landing position that fits your career path)
Location: Vodafone Hungary - Budapest, 9th district
Requirement: Preference for technology related degree disciplines: Electrical and General Engineering, Computer Science, Data Analytics, AI/Robotics.
More details about the selection process and the program here
