**Rector's Instruction 4/2023 (II.08.)  
on the procedure for the final examinations at the University of Óbuda**

At the University of Óbuda, I authorise the organisation of a separate final examination session for students who wish to continue their studies in a Master's programme in each faculty and in each degree programme from the second semester of the academic year 2022/23. The separate final examination may be organised during the examination period.

This is to ensure that our applicants are able to submit the necessary documents to the Education Office in time for the admission procedure to be valid.

The final examinations, which are organised separately, are conducted in the same way as the general final examinations, as set out in the training programme, but with methodological variations.

A written declaration that the student is applying for a Master's degree is a prerequisite for the separate final examination. The declaration must be made at the same time as the application for the final examination.

This Instruction shall enter into force on the day following that of its publication.
