Based on the authorisation granted under Government Decree 203/2020 (14 May) on Hungarian Diaspora Scholarship and the amendment of particular government decrees required for the operation of the Hungarian Diaspora Scholarship programme (hereinafter: HDS D) – in order to implement the scholarship programme – Tempus Public Foundation has adopted the following Operational Regulations (hereinafter: Regulations).

CHAPTER I: GENERAL PROVISIONS

I.1 Introduction

1. The Board of Trustees of the Public Foundation,
 - a) in accordance with the provisions of Act CCIV of 2011 on National Higher Education (hereinafter: ANHE);
 - b) taking into consideration the provisions of HDS D;
 - c) pursuant to Section 5 of the HDS D;

has adopted the following Regulations in order to implement the Hungarian Diaspora Scholarship programme (hereinafter: HDS Programme).

I.2 The Regulations and the Implementation Guide

1. Pursuant to the HDS D, the detailed rules for the operation of the HDS Programme are set forth in the Regulations and the supplementary Implementation Guide.
2. The Regulations and the Implementation Guide are prepared by the Public Foundation on the basis of guidelines previously agreed with the Minister of Foreign Affairs, and taking into account the comments of the Minister of Higher Education on the enforcement of strategic and educational policy considerations.
3. The Regulations (and any amendments thereto) shall be approved in writing by the Minister of Foreign Affairs, at the proposal of the Board of Trustees of the Public Foundation, within 30 days of the receipt, in accordance with Section 4 (1) a) of the HDS D.
4. The Implementation Guide is approved by the Board of Trustees of the Public Foundation.
5. In case the Regulations are amended, the Implementation Guide shall also be amended accordingly at the relevant meeting of the Board of Trustees. In case the amendment of the Implementation Guide does not affect the content of the Regulations, it may be amended separately.
6. The Regulations, the Implementation Guide, as well as the amendments thereof shall enter into force on the date of their publication.
7. The Regulations and its unofficial English translation, as well as the Implementation Guide shall be published without delay on the official website of the Public Foundation after approval.
8. The date of the latest version of the two documents shall be indicated on the opening page of both the Regulations and the Implementation Guide.
9. In the event of a dispute, the Hungarian language version of the Regulations shall prevail.
10. The persons concerned shall be informed of the adoption and amendment of the Regulations and the Implementation Guide.

I.3 References

1. In issues not provided for in the Regulations, the following shall apply:
 - a) legislation, in particular ANHE, HDS D, and
 - b) with respect to the Public Foundation, the Memorandum of Association, the Organisational and Operational Regulations and other regulations and director's instructions (Code of Conduct, records management policy, data protection policy, complaint management policy, director's instructions on handling exceptions, audit implementation guidelines, the rules of providing information on the results of the evaluation, disclosure obligation).

CHAPTER II: THE HDS PROGRAMME AND ITS STRUCTURE

1. The HDS Programme offers an opportunity to people of Hungarian ties and Hungarian roots, living in the diaspora, to participate in Hungarian higher education.
2. The countries and regions affected by the Hungarian Diaspora Scholarship programme are defined in the HDS D.
3. The HDS Programme consists of institutional and individual student applications. The health care protocol (medical examination) is a mandatory element of the program.
4. HDS Programme applicants can apply to courses offered in Hungarian or in foreign languages under the HDS Programme by those higher education institutions – as defined in Section 4 (1), points a) and b) of the Higher Education Act, and from those mentioned in point d), institutions maintained by asset management trusts registered in Hungary – which participate in the Stipendium Hungaricum programme (hereinafter: SH Programme). Following a successful institutional application for the SH Programme, the institutions obtain or renew the SH licence, which also entitles them to participate in the HDS Programme. The accredited higher education institutions listed in Annex 1 to the ANHE that are not authorised to apply for an SH licence may as well participate in the SH and HDS Programmes without an SH licence, at simplified terms, under a separate call for applications.
5. Institutions holding the SH licence – as well as those that participate in the SH Programme without a licence – can participate in the SH and HDS Programmes with the following study programmes offered within the Hungarian higher education system:
 - a) foreign language bachelor's, master's or one-tier master's programmes, which are registered with the Educational Authority (hereinafter: EA) on the basis of a supporting opinion of the Hungarian Accreditation Committee (hereinafter: HAC) or a special decision of the minister responsible for higher education;
 - b) programmes of doctoral schools taught in a foreign language, that are listed in the EA registry and preparatory courses in Hungarian for higher education, which are registered in the EA registry.
 - c) postgraduate specialist training courses;
 - d) short, intensive courses (summer university courses, specialisation courses etc.)
6. The following programmes belonging to the Hungarian higher education system, which are listed in the EA registry, can participate in the SH and HDS Programmes without applying separately:

- a) bachelor's, master's or one-tier master's programmes in Hungarian, based on the HAC's supporting opinion or a special decision of the minister responsible for higher education, or
b) programmes of doctoral schools taught in Hungarian language.
7. Furthermore, postgraduate specialist training courses as well as short, intensive courses (summer university courses, specialisation courses etc.) in Hungarian language can also participate in the SH and HDS Programmes without applying separately.
 8. The Hungarian language preparatory training course organised by the Ministry of Foreign Affairs and Trade (hereinafter: MFAT) or its background institution entrusted with the exercise of such public function can participate in the SH and HDS Programmes without an application.
 9. In the case of music, dance, technical and informatics study fields, the institution may decide, in accordance with Section 80 (2) d) of the Higher Education Act, to admit candidates to a foundation semester or a foundation year prior to the bachelor's and master's programmes.
 10. In the case of programmes described in points 6 and 7, the Directorate for Internationalisation of Higher Education (hereinafter referred to as NEFI) may exclude from participation those programmes that do not have Hungarian as their specified study language or due to their content the knowledge cannot be transmitted in Hungarian language (typically foreign language programmes).
 11. With regard to 5.d), the NEFI may exclude from participation language course type programmes or other study programmes which, due to their content and nature, cannot be conveyed in the given foreign language.
 12. The involvement of higher education institutions is governed by the SH framework agreements, as well as these Operational Regulations and the Implementation Guide of the HDS Programme. Another criterion of participation for higher education institutions is that they need to agree to provide a Hungarian as a foreign language and culture course for scholarship holders during their entire term of study.
 13. As regards the programmes mentioned in Section 5 d), the application procedure, the eligibility criteria, and the scholarship holders' benefits and obligations are specified in the relevant call for applications.

CHAPTER III: STUDENT APPLICATIONS AND SELECTION PROCESS

III.1 Principles of Student Application

1. The call for student applications is prepared by the NEFI, based on preliminary discussions with the Minister of Foreign Affairs and the minister responsible for higher education.
2. The call for student applications includes terms and conditions of application, the application deadline, the evaluation criteria, the current rate of scholarships available to scholarship holders and the requirements related to their academic advancement, as well as further provisions specified in Section 66 (2) of Government Decree 368/2011 (31 December) on the Implementation of the Act on Public Finances. In the case of programmes realised in the frame of alumni activities (pursuant to II.5. d)), the application procedure, eligibility criteria, scholarship holders' benefits and obligations are indicated in a separate call for applications.
3. The Board of Trustees of the Public Foundation decides on the call for applications.
4. The languages of the call for applications are English and Hungarian.

5. The call for applications shall be published immediately after the decision of the Board of Trustees.
6. During the application process, the Public Foundation and the higher education institutions may not charge any fees to the applicant.
7. Promoting equal treatment, student diversity and excellence is a key principle of the application process.
8. Under the HDS Programme, only full-time studies can be pursued. Exceptions may be made for the short, intensive courses described in Section II.5 d) which shall be announced in a separate call for applications.
9. Hungarian preparatory courses, foundation semester/year and short, intensive courses are not available in the frame of the HDS Programme in the form of part-time studies.
10. Those who attended the Hungarian language preparatory training course may only apply for study programmes taught in Hungarian language, with the exception of the versions of the Hungarian Language and Literature study programme, registered in English language. If a scholarship holder studies at such study programme, the same requirements apply to the scholarship holder as well as to the institution as in the case of Hungarian language study programmes.

III.2 Students Eligible for Submitting Applications

1. A valid student application may be submitted by the applicant who:
 - a) has Hungarian roots, and can furnish evidence of their ties in a motivation letter written either in Hungarian or English;
 - b) lives in the diaspora region and is a foreign citizen – which means the applicant has a citizenship which entitles the applicant to participate in the programme –, with a foreign address of residence;
 - c) is recommended by the Hungarian diplomatic mission accredited to a particular country (including honorary consuls) or by the Hungarian diaspora organisation operating in a particular country, or one who, based on the special approval by the Minister of Foreign Affairs – granted to the Board of Trustees of the Public Foundation in accordance with the procedure specified in the Operational Regulations of the scholarship programme – is admitted to the supported study programme of an institution involved in the scholarship programme;
 - d) had spent at least 10 years abroad (that is, not in Hungary) prior to submitting the application, and the final date of this 10-year period is not earlier than one year before the date of submitting the application, or, in the case of those involved in fee-paying study programmes in Hungarian higher education, the final date of this 10-year period is not earlier than one year before commencing the self-financed studies; in this respect, the participants of the programme specified in Section 2 (2) of Government Decree 241/2016 (16 August) are equated to students transferring from fee-paying study programmes;
 - e) has completed the last 4 years of their secondary education in a foreign country (not Hungary). If in the applicant's country secondary education lasts less than for 4 years, then the last period of primary education shall also be considered;
 - f) is an adult, or attains the age of 18 at the commencement of their scholarship studies, at least before 31 August of the calendar year of the closing date for applications, except in

- the case of applicants for dance arts, or those exempted by special decision of the Minister of Foreign Affairs;
- g) agrees to conclude a scholarship agreement after having been awarded the scholarship, and – unless the chosen study course is provided in Hungarian – to attend a Hungarian as a foreign language and culture course during the entire term of the scholarship agreement, and before obtaining the degree, but not later than one year after obtaining the degree (for exceptions, see the Implementation Guide) takes an official language exam in Hungarian as a foreign language at a level corresponding to the length of the study period, or certifies their knowledge of Hungarian with a document “Certificate of Hungarian Language Assessment Result” issued by MFA Balassi (KKM Magyar Diplomáciai Akadémia Kft.); in case of failure to comply with this requirement, the participant shall agree to repay the training costs;
 - h) agrees to support the local Hungarian diaspora in a particular country with community work after obtaining their degree, for the period of time specified in the call for applications;
 - i) has not formerly participated in the HDS Programme at the same or a higher level of education, or in other scholarship programmes established by the Hungarian Government; if the applicant has formerly participated in the HDS Programme or another scholarship programme established by the Hungarian Government at the same level of education in the form of partial studies, they may be granted the scholarship holder status for a training period reduced by the duration of the partial training; Hungarian language preparatory courses are not degree programs; therefore, they are available for all former scholarship holders who obtained their degree on any level except doctoral – on the condition that this aspect is taken into consideration during the application after a preparatory programme);
 - j) in the case of receiving the HDS scholarship, does not have a valid HDS or other scholarship status established by the Hungarian Government at the start of the scholarship status;
 - k) complies with the detailed rules set forth in the Implementation Guide.
2. When considering an application, it is of key importance whether the applicant has done any work for the Hungarian community and has been engaged in any activity related to Hungarian culture, arts, science or other fields, which the applicant supports in the motivation letter.
 3. For the purposes of paragraph 1 j) above, applicants who have previously completed a one-tier master's programme may apply only for doctoral training, applicants who have previously completed a master's programme may not apply for a master's and a one-tier master's programme, and applicants who have previously completed a bachelor's programme may apply for one-tier master's programme only on condition that their scholarship period is reduced by the number of semesters supported in the course of their bachelor's programme. After completing the Hungarian preparatory programme, it is possible to continue the studies also only at a higher level (for example, if someone completes a Hungarian preparatory programme after a bachelor's degree, they can only continue their studies at a master's level).
 4. Applicants are not eligible for the scholarship, if
 - a) they only have Hungarian citizenship;
 - b) they do not meet the entry requirements for the applied programme.
 5. Applicants may only apply to one study programme of two institutions each, or two study programmes of one institution, specifying the order of preference. After the submission of the application, this order and the information pertaining to the application may not be changed.

6. When submitting the application, the applicant must attach a statement in accordance with Annex 1 (for bachelor's, master's, one-tier master's, doctoral study programmes, postgraduate specialist training courses and other non-degree programmes) or Annex 2 (for Hungarian Summer University Courses) to these Regulations, and declare that they consent to the processing of their personal data during the application procedure as well as the scholarship programme and the career monitoring process, in connection with the same. The text of the declaration is included in the call for applications.
7. A scholarship holder status can be granted to an applicant who agrees to comply with the obligation to undergo health screening in case it is required by the host institution or the scholarship programme.
8. The procedure of nomination by the Minister of Foreign Affairs is set forth in Annex 1 of these Operational Regulations.
9. In order to apply for doctoral training, an applicant must attach the recommendation letter of their current or former instructor to their application. The recommendation must be completed by the deadline specified in the call for application. Doctoral schools can set further requirements – e.g. statement of supervisor – which are listed in the online application system. The procedure for applying from fee-paying study programmes to the HDS Programme is set forth in the Implementation Guide.

III.3 The Student Application and Selection Process

1. Application for the HDS Programme will be managed in a dedicated online application system.
2. The Public Foundation shall be responsible for operating the online application system of the HDS Programme.
3. Following the publication of the call for applications, the online application system will be opened by the Public Foundation.
4. The institutions involved will be granted access rights by the Public Foundation to manage the application process.
5. The applicants can use the application system after registration.
6. The deadlines for submitting the documents and completing or providing any further documents is set forth in the call for application.
7. The completion of the application process is followed by technical inspection and a check of authenticity of the recommendations. The technical inspection is conducted by the Public Foundation and the recommendations are checked by the Hungarian diplomatic mission of the country in which the diaspora organisation which issued the recommendation works.
8. Only students with validated recommendations are eligible for the admission process.
9. The admission procedure for the first and then the second preference applications begins after validating the authenticity of recommendations.
10. If during the admission procedure it turns out that a candidate, applying for a study programme taught in Hungarian language, does not have the sufficient Hungarian language skills for the selected programme, the applicant can be re-allocated to a Hungarian language preparatory course.
11. The institutions send the results of the admission procedure to the Public Foundation.
12. The motivation letters of the applicants will be evaluated by experts in parallel with the institutional admission procedure. The motivation letters should briefly explain why the applicant wishes to receive the scholarship, how the scholarship may further strengthen their

- relationship to Hungary, and how they could use the knowledge and experience gained during their studies in Hungary to support a diaspora community. The experts use a standard system of criteria to evaluate the motivation letters.
13. In case the number of applicants in a particular application year exceeds 150% of those eligible for support, the motivation letters shall be evaluated before the admission procedures are conducted by the institutions. According to the ranking based on the evaluation of the motivation letters, 150% of those eligible for support in a particular year can participate in the admission procedure of the institution.
 14. The NEFI shall propose the allocation of the admissible and conditionally admissible applicants taking into account the following principles:
 - a) the order of the institutions as indicated by the applicant;
 - b) admission results (the minimum score is included in the relevant call for applications);
 - c) the ranking based on the evaluation of the motivation letters;
 - d) programme quota;
 - e) strategic priorities for 2024–2028 (e.g. preference given to STEM+ studies);
 - f) other criteria included in the call for applications.The allocation of the applicants shall be based on the priority order of the relevant call for applications.
 15. When evaluating the admission material of a number of applicants nearing the applicable quota and prioritised according to the allocation proposal, the Evaluation Committee shall select the applicants recommended for support based on objective criteria (e.g. regional considerations, specialist fields given higher priority, national political aspects etc.).
 16. The allocation procedure is described in the Implementation Guide.
 17. If a study programme does not start or if the available capacities are insufficient for the programme, NEFI may reallocate the applicants to the second-place in the student application list, provided that the applicant has been admitted and the course complies with the bilateral agreements (quotas for study programmes and study fields) and there is free capacity on the course.
 18. If the applicant is not admitted to the second-place study programme specified in the student application, NEFI may forward the applicant's application to the same study programme at another institution, depending on whether there is free capacity on the programme. In this case, the new institution may decide to accept or reject the application after examining the application.
 19. In case the procedure described in points 17 and 18 fails, the applicant must be rejected.
 20. If the available resources are inadequate, the list of applicants proposed to be supported can be narrowed down on the basis of the allocation list.
 21. In case of a high number of applications compared to the available scholarship quota, the Public Foundation reserves the right to conduct institutional admission procedures only for study programmes indicated in the first place.
 22. The Board of Trustees of the Public Foundation decides on the grant of scholarships on behalf of the Minister of Foreign Affairs. The decision of the Board of Trustees – based on the application submitted – shall determine the number of semesters awarded to the scholarship holder, the host institution of the scholarship holder and the training that the scholarship holder may undertake, subject to the other conditions set forth in Section 19. There is no appeal against the decision of the Board of Trustees.

23. The Board of Trustees may refuse to grant scholarship to a person who is considered to present a potential national security risk by the competent national security services.
24. Following the allocation decision on applicants, the location of the applicant's training may only be changed when justified (e.g., the study programme is not launched), taking into account the order of preference, the capacity of the programme and the available resources. In such a case, reallocation is the responsibility of the NEFI, based on authorisation from the Board of Trustees and subject to applicable rules of procedure.
25. The commencement of scholarship studies can only be postponed if the host institution issues a letter of acceptance for the new semester. The scholarship holder may only postpone the start of the scholarship status for health or other unexpected reasons beyond their control, that is, thus they may request to start the scholarship holder status in a later semester. The scholarship holder status may only be postponed before the establishment of the student status. Commencing the scholarship studies may only be postponed by a maximum of two semesters.
26. The deadline for receipt of requests is set out in the Implementation Guide.
27. The details of the postponement rules are described in the Implementation Guide.

III.4 The Role and Responsibilities of the Evaluation Committee

The Evaluation Committee is operated by the MFAT.

The Evaluation Committee is involved in the evaluation of the applications as follows:

- a) specifies the objective criteria for selecting experts from the TPF database to evaluate the motivation letters and using the list of experts selected according to the criteria provided, approves a list of experts who can participate in the evaluation of the motivation letters.
- b) according to criteria of national policy and national strategy, identifies priorities, and compiles the list of students recommended for scholarship accordingly. The Committee may identify the priorities on the premises during the meeting, which may be the following:
 - the quota for regions/countries,
 - priorities and quotas specified according to fields of study, levels, specialisation and mode.

Based on criteria of national policy, the Evaluation Committee may grant extra points to up to 10% of the maximum admission points, in up to 20% of the scholarship quota.

CHAPTER IV: THE BENEFITS, RIGHTS AND OBLIGATIONS OF SCHOLARSHIP HOLDERS

IV.1 Benefits for Scholarship Holders

1. The legal entity of the scholarship agreement shall be exclusively the scholarship holder. The scholarship represents the benefit provided to one person. It does not provide visas, supplementary benefits or administrative services to the persons accompanying them or to their family members.

2. The visa administration and the extension of the residence permit is free of charge for scholarship holders according to point 2) c) of paragraph 5 of the Decree 28/2007 (31 May) of the Ministry of Justice and Law Enforcement.
3. In the case of an active student status, the scholarship holder will receive the following benefits:
 - a) Exemption from the reimbursement of the cost of education.
 - b) According to the request indicated in the application, living and housing allowance for the scholarship studies period.

Living and housing allowance is granted as follows:

 - i. a monthly scholarship (living allowance) amount of HUF 43,700 in bachelor's and master's programmes, which can be withdrawn in the cases set out in the Operational Regulations and the Implementation Guide,

 - iii. the scholarship also includes a travel component, which, taking into account the distance between Budapest and the city of the scholarship holder's place of residence, if the distance is between 8,000 and 19,999 km, provides a travel allowance of HUF 330,000, on one occasion per awarded scholarship, upon request, for the purpose of facilitating the change of residence required to start scholarship studies,
 - iv. in the foundation semester/year and Hungarian preparatory programmes, during the whole period of the preparatory or foundation course and during the first two semesters following the preparatory or foundation course a monthly scholarship (living allowance) amount of HUF 43,700, which can be withdrawn in the cases set out in the Operational Regulations and the Implementation Guide,
 - v. dormitory accommodation or HUF 40,000/month housing allowance in bachelor's, master's, PhD, foundation semester/year and one-year Hungarian preparatory programmes,
 - vi. participants attending postgraduate specialist training courses are entitled to receive the same allowances as the participants in bachelor's programmes, based on a separate request,
 - vii. scholarship holders who are awarded the students excellence award based on the host institution's proposal will receive an increased scholarship of HUF 140,000 for one month in the awarded semester,
 - viii. from the second year of their studies, depending on the decision on a further request, as specified in the Implementation Guide; scholarship holders are entitled to receive the amount of living and housing allowance (or dormitory) stated in the b) point. The living and housing allowance may be reduced or withdrawn in cases set out in the Regulations and the Implementation Guide,

of HUF 400,000 considered as scholarship, subject to the award of a doctoral degree. The application for the aid can be approved if the scholarship holder received living allowance in the last semester of their studies (dissertation scholarship holders (those who have actually started their dissertation scholarship studies) will not receive this grant).

- d)
 - e) services according to Section 81 (1) of the ANHE and the requirements set out in paragraph (2) thereof,
 - f) the health care service defined in Section 22 (1) i) id) of Act CXXII of 2019 on the Eligibility for and Funding of Social Security Benefits,
 - g) Health contribution of HUF 65,000 per academic year (broken down by HUF 32,500 per semester) to be used for additional health insurance and/or health care services for scholarship holders. For participants in short intensive programmes, the health contribution is HUF 400/day.
4. The scholarship agreement and student status of scholarship holders who have a pre-degree certificate in doctoral training but have not yet obtained a doctoral degree will be suspended and will terminate after 1 year if they fail to obtain the doctoral degree. If they are awarded a scholarship in the relevant special application procedure, they can be granted a dissertation scholarship for up to 8 months after their obtaining a pre-degree certificate. The rules pertaining to this scholarship award can be found in the call for application for the dissertation scholarship and in the Implementation Guide.
 5. In addition to the social, performance-based support available to the scholarship holder, the higher education institution may, at the expense of its own revenue, grant other excellence and/or social scholarships through a call for application, as specified in their regulations.
 6. The scholarship holder is entitled to receive the national higher education scholarship pursuant to Section 24 of Government Decree 51/2007 (26 March).
 7. Applicants receiving other parallel scholarship to pursue studies in Hungary, funded from Hungarian budgetary sources, are not eligible for the HDS scholarship. Cases requiring special consideration are described in the Implementation Guide.
 8. If a scholarship holder receives support during the study period for the purpose of training or partial training outside Hungary, they will lose the grants received under the SH scholarship. As an exception, partial (exchange) studies covering maximum 1 or 2 semesters at institutions of higher education located outside of Hungary and owned (directly or indirectly) by non-profit asset management funds registered in Hungary, or at foreign higher education institutions participating in the Makovecz Scholarship Programme, under a cooperation agreement between the sending and the host institution, are exempted from this rule. The cooperation agreement must provide for – in accordance with the detailed rules set out in the Implementation Guide – an invoice-based settlement of accounts regarding the cost allowance between the institutions, the health care services provided for the scholarship holders, and the scholarship holders' obligations regarding their stay in the relevant country.
 9. The rights concerning the employment of scholarship holders are governed by Section 54 (8) of Act XC of 2023 on the General Rules for the Entry and Residence of Third-Country Nationals, according to which third-country nationals holding a residence permit for the purpose of studies or student mobility, or a student mobility certificate, may engage in work for not more than 30 hours a week during semesters, and may work full time for a maximum of ninety days a year outside semesters.

10. The scholarship agreement in effect during the semester of graduation will be extended until August 31 of that year for all scholarship holders who receive their degree at the end of the spring semester under the HDS Programme and receive scholarship at a higher level of training in the application procedure for that year. The continuity of the legal relationship also applies to students attending Hungarian language preparatory courses and starting their studies at bachelor's, master's or PhD level in the next academic year, with the exception of students awarded scholarships for postgraduate specialist training courses, who are not eligible to grants for the summer period.
11. Applicants who fail to accept their scholarship before the deadline shall be deemed as withdrawn from the scholarship.

IV.2 Obligations Concerning Learning Hungarian as a Foreign Language and Culture

1. Scholarship holders studying in foreign language programmes (including all levels of education) are required to attend a Hungarian as a foreign language and culture course, provided by the host institution, during their studies pursued under the HDS Programme.
2. Students are required – unless the chosen study course is provided in Hungarian – before obtaining their degree at the level of education associated with the scholarship holder status, but not later than one year after obtaining the degree (for exceptions, see the Implementation Guide), to take an official language exam in Hungarian as a foreign language at a level corresponding to the length of the study period, or certify their knowledge of Hungarian with a document “Certificate of Hungarian Language Assessment Result” issued by MFA Balassi (KKM Magyar Diplomáciai Akadémia Kft.); in case of failure to comply with this requirement, the participant shall agree to repay the training costs.
3. In case a scholarship holder fails to comply with the obligation to learn Hungarian as a foreign language and culture, their scholarship holder status shall be terminated.
4. In case a scholarship holder fails to comply with the obligation to take a language exam or certify their knowledge of Hungarian at a level corresponding to the length of the study period as per Section 2 above, they shall be required to repay the training costs.
5. For scholarship holders studying in programmes offered in Hungarian, attendance of a Hungarian as a foreign language and culture course is optional.
6. The detailed rules concerning learning Hungarian as a foreign language and culture are set forth in the Implementation Guide.

IV.3 Further Obligations of Scholarship Holders

1. Scholarship holders undertake to use their knowledge by actively contributing to promoting, cultivating and preserving Hungarian language and culture in the diaspora community of any country after finishing their studies under the HDS Programme.
2. The scholarship holder is required to establish a student status with the higher education institution involved in the admission or transfer decision and to maintain that status for the duration of the scholarship payment period.
3. The scholarship holder shall conclude an agreement with the host institution with the following mandatory content:

- a) the training period specified in the training and degree requirements applicable to the relevant programme and the duration of the foundation course, postgraduate specialist training courses and short intensive courses referred to in Section 80 (2) d) of the ANHE;
 - b) the monthly amount of the scholarship as specified in the Operational Regulations of the HDS Programme, as well as the date and method of payment thereof;
 - c) the procedure for transfer to another higher education institution;
 - d) the consent to data processing;
 - e) the condition that the scholarship agreement shall enter into force on the date of the scholarship holder establishing student status;
 - f) the procedure of suspending and terminating the scholarship holder status and the higher education studies;
 - g) the rules and conditions governing the compulsory learning of Hungarian as a foreign language and culture;
 - h) the obligation to undertake community work in support of the local diaspora in a given country;
 - i) the obligations set out in the health care protocol,
 - j) the obligation to provide information about criminal proceedings initiated during the scholarship period to the Tempus Public Foundation and the host institution.
4. The agreement shall be updated in case of any change to its content, e.g. change of major, extension, length of studies.
 5. Excepting those cases listed in Section 59 (1) a) of the ANHE and in Sections 8 (2) and 9 (3) of HDS D, the scholarship agreement shall be terminated if the student status of the scholarship holder is terminated.
 6. The scholarship holder is required to reside habitually in Hungary during the training period as follows:

CHAPTER VI: HEALTH CARE PROTOCOL (MEDICAL EXAMINATION)

1. By the Government Decree 1793/2019 (XII. 23.) on the strategic correlations of the Stipendium Hungaricum Scholarship Programme the Government has accepted the strategic courses of action of the scholarship programme, of which one of its elements was the improvement of health security. In accordance with this – and based on the Government Decree 16/2021 (I.22.) on the medical examination of students entering Hungary during a state of emergency, furthermore authorized by point h) of subsection (2) of section 80 of the Higher Education Act -, the institution responsible for the management of said programme has ordered compulsory medical examination (“compulsory health care protocol”) for students supported by said scholarship programme, as a prerequisite of participation.
 - 1.A. The administrative tasks related to the medical examination shall be carried out by the Public Foundation on the basis of the guidelines of the Ministry of Foreign Affairs and Trade under this chapter.
2. The institution or health care provider conducting the aptitude test handles the student's health data in accordance with the provisions of Act CLIV of 1997 on Health Care.
3. The compulsory health care protocol will first be introduced in the case of students whose scholarship holder status is established in the 2021/2022 Academic Year and will stay in force for upcoming academic years until ordered otherwise.
4. The scholarship holder must request an appointment for the examination from said health care provider as soon as possible after entering Hungary. The scholarship holder must fulfil their obligations related to the health care protocol (completion of medical form, undergoing the medical examinations and taking up the required vaccinations listed in the Implementation

- Guide) at a health care provider that is on the list of providers approved by their host institution or the institution managing the scholarship programme.
5. In the case of section 3, the scholarship agreement created between the scholarship holder and their host institution must contain the fulfilment of the responsibilities pertaining to the health care protocol.
 6. Upper-year scholarship students who are not required to be screened may voluntarily participate in the vaccinations and screenings required by the health care protocol during their studies, if the total amount of the service fee for the academic year and the number of scholarship holders who need the services, allow.
 7. In the case of section 6, the scholarship holder shall notify the host institution of their wish to participate. The host institution shall notify Tempus Public Foundation and the relevant health care provider of the scholarship holder's wish to participate, then proceed to provide the scholarship holder the technical information necessary to participate in the process. The institution shall inform the senior scholarship holder of the possibility of voluntary participation in accordance with section 6.
 8. Facilitating the medical examination ordered by the institution responsible for the management is the responsibility of the host institution. The institution responsible for the management of the program may decide, in the interests of efficiency and uniform implementation, to have the medical examination carried out by selected service providers through a competitive tendering procedure; in such a case, the use of the selected service provider is mandatory, except for the institutions providing medical training and the background institution entrusted by the Ministry of Foreign Affairs and Trade with the public task of organizing Hungarian language preparatory training. Institutions implementing the medical examinations on their own responsibility must declare in writing before the start of each academic year whether they intend to implement the medical examination on their own responsibility or through the centrally selected provider. Where no competitive tendering procedure is used, the institutions shall ensure that an appropriate health care provider is provided. Decisions on the tendering procedure for the selection of service providers or on the modification of tenderers' declarations and contract extensions may be taken with the prior agreement of the Ministry of Foreign Affairs and Trade.
 9. The Ministry of Foreign Affairs and Trade provides a special contribution to the costs of the medical examination for institutions carrying out the medical protocol (on the basis of a declaration or in the absence of a central provider) on their own responsibility, as specified in the Implementation Guide, for a certain amount per academic year.
 10. The institution responsible for the management of the programme with the assistance of the Public Foundation, will cover the costs of the medical examination for the selected service providers, up to the amount of the budget allocated to a scholarship holder, for the services provided to the scholarship holders who use these service providers. The total amount of the service fee for a given academic year and the number of scholarship holders using the services will be determined on the basis of the guidelines of the Ministry of Foreign Affairs and Trade.
 11. In the framework of the medical examination, the institution or the health care provider, which is responsible for implementing said examination, takes health records, carries out screenings and administers vaccinations. The scope of screenings and vaccinations is described in the Implementation Guide.
 12. The collection of medical forms, the medical examinations and the vaccinations shall take place as soon as possible after the student enters Hungary.

13. The health care professional responsible for the examination shall issue a certification on whether the examined student is fit/unfit/temporarily unfit (with the indication of period) or temporarily fit only online (with the indication of period) based on their professional judgement, the examination results and the medical form collected from the student. An unfit certification may lead to the termination or suspension of the student's scholarship holder status, depending on whether the student is unfit to start or continue their studies at their programme temporarily or indefinitely. Consequently, the certification contains, whether the student is unfit temporarily or indefinitely. If the student is temporarily unfit, the duration of unfitness must be included in the certification as well. In connection to the medical examination the possible cases of the termination and suspension of the scholarship status is listed in section IV.5.
14. The health care provider must consult the higher education institution and the Public Foundation in advance in order to register the health record and to designate the place where the given screenings and vaccinations are to be carried out; in the case of institutions implementing the medical examination under their own responsibility, this consultation obligation applies only to the Public Foundation. The aim is to ensure that it is carried out at a location close to the higher education institution of the scholar concerned and close to the place of training. If the higher education institution offers to cover the location, the health care provider is obliged to use it as far as possible.
15. If the institution or health care provider implementing the medical examination under its own responsibility prescribes additional treatments other than those specified in the Implementation Guidelines, the financing of these treatments is not covered by the mandatory health protocol and the professional manager does not assume responsibility for their financing.
16. The higher education institution which is not responsible for the implementation of the medical examination must cooperate with the health care provider selected in accordance with point 8, assist in the conduct of the health assessment and provide the scholarship holders with appropriate information.
17. The institutions implementing the medical examination under their own responsibility are required to provide monthly statistical and anonymous data to the Public Foundation, which is mandated by the institution responsible for the management of the programme. If the health service provider defined in point 8 carries out the medical examinations, the health service provider shall provide monthly – statistical and anonymous – data to the Public Foundation. From these data sources, the Public Foundation will provide monthly – statistical and anonymous – data to the Ministry of Foreign Affairs and Trade

CHAPTER VII: SPECIAL CONSIDERATION

1. The Board of Trustees is entitled to give special consideration to matters related to scholarship status in exceptionally justified cases (e.g. force majeure or other extraordinary circumstances that might be subject to special consideration).
2. This right referred to in point 1 does not apply to decisions adopted within the competence of the institution.

3. A request may be submitted by the scholarship holder, with the exception of a request for a minimum credit requirement, which may be submitted by the institution to NEFI in accordance with point 4.
4. The request must be addressed to the Board of Trustees of the Public Foundation in writing (electronically or by post), duly substantiated and sent to NEFI.

2. In case the applicant is unable to procure in their sending country the mandatory medical certificate that is required as part of the application process, due to force majeure (e.g. unfit weather conditions, pandemic/epidemic emergency or political conditions), the document can be submitted completed and signed by the applicant themselves.

I agree and understand that once I am a scholarship holder, **I am obliged to live and study in Hungary**, therefore I am not allowed to live habitually in any other country during the study period – otherwise my scholarship holder status will be terminated. I agree and understand that I shall register in person at the international office of my Host Institution at the beginning of each semester. I understand that Scholarship Holders are allowed to stay abroad for a maximum of 30 days per training period for participating in conferences, internships, research, or other study-related purposes (exemptions may apply in case of doctoral-level students).

I understand that my scholarship holder status shall be terminated if I receive a scholarship that supports studies outside Hungary for more than 30 days. Study-related professional programmes

(conferences, study trips etc.) with a maximum duration of 30 days can be supported within the framework of **other scholarship programmes** (e.g. Erasmus+, CEEPUS). As another exception, partial studies no longer than one or two semesters at a higher education institution operating outside of Hungary and owned (directly or indirectly) by a public purpose asset management fund registered in Hungary, or at a foreign higher education institution participating in the Makovecz Scholarship Program, under a cooperation agreement between the sending and the host institution, are also permitted. The above exceptions do not apply to programmes of the European Solidarity Corps as they are not compatible with studies for Scholarship Holders.

I agree and understand that applicants are not eligible to receive the Hungarian Diaspora Scholarship in case they have another **concurrent scholarship from the Hungarian central budget** for studies in Hungary. In case that I am awarded more than one scholarship, I shall choose one of the scholarships and renounce from the other ones.

I agree and understand that **in accordance with the Operational Regulations of the Scholarship Programme, the scholarship status is terminated if:**

- the student status of the Scholarship Holder is terminated by the Host Institution,
- the Scholarship Holder withdraws from the scholarship in a written form (sent to both Tempus Public Foundation and the Host Institution),
- the Scholarship Holder had obtained their degree at the study programme supported by the scholarship (or obtained a certificate in case of non-degree and partial (exchange) study programmes),
- the Scholarship Holder does not attend the compulsory Hungarian language and culture course (unless the scholarship is awarded for a study programme conducted in the Hungarian language),
- the Scholarship Holder does not live in Hungary habitually and the Host Institution terminates their scholarship status for this reason,
- the Scholarship Holder loses (or gives up) the citizenship that entitles him/her to participate in the Scholarship Programme, or, if the Scholarship Holder is granted the status of stateless person, refugee, protected individual, asylum-seeker, admitted individual, migrant, settled person, or do not fall within the scope of Section 39 (1) a) of the Higher Education Act,
- as a result of institutional disciplinary or criminal proceedings against the Scholarship Holder, the Scholarship Holder is expelled, and for this reason the Tempus Public Foundation asks the Host Institution to terminate the scholarship status,
- the Scholarship Holder does not fulfil their obligation to participate in medical screenings, and their additional obligations set out in the health care protocol or provides false information in relation to the health screening protocol during the application period or during their scholarship period, or
- in any other cases described in the Operational Regulations of the Scholarship Programme in effect.

I agree and understand that if I am awarded the Hungarian Diaspora Scholarship, accept the scholarship offer, do not arrive to Hungary and start my scholarship studies, and fail to notify Tempus Public Foundation of this fact until 30 September, then I will not be able to reapply for the Hungarian Diaspora Scholarship Programme within the following three application rounds.

I agree and understand that applicants who are awarded the scholarship cannot get a scholarship holder status if they

- withdraw the scholarship in a written form (sent to both Tempus Public Foundation and the Host Institution) or in the application system, or
- do not upload their missing application documents until the deadline given in the Call for Applications, or the uploaded documents are not accepted by the Host Institution, or
- do not arrive and enrol until the registration date specified by the Host Institution (except cases described in the Operational Regulations), or
- do not hold a secondary school graduation certificate until the date specified in the Call for Applications, or
- fail to accept their scholarship offer by the given deadline, or
- withdraw their data protection (GDPR) consents, including the Privacy Statement, or
- provided false information during the application process.

I agree and understand that all Diaspora Scholarship Holders are **bound by the Operational Regulations** of the Hungarian Diaspora Scholarship Programme. I understand that the regulations can be subject to change, and the Scholarship Holders are bound by the prevailing regulations at any given time.

I confirm that I have **read and understood the current Call for Applications** of the Hungarian Diaspora Scholarship Programme.
