

<b>Name of subject:</b> <b>Form design II.</b>	<b>NEPTUN-code:</b> RTXFO2BBNE	<b>Number of hours:</b> <i>lec+gs+lab</i> 0+0+3	<b>Credit:</b> 4 <b>Requirements:</b> practice mark
<b>Course coordinator:</b> Dóra Papp-Vid DLA	<b>Title:</b> senior lecturer	<b>Prerequisite:</b> <b>Form design I.</b>	
<b>Subject content:</b>			
<p>Establishing the creative design approach necessary for the design of industrial products, the interpretation of the concept of design from the designer's point of view.</p> <p>Knowledge of the qualities of different types of trade-specific materials and experimentation with their shape forming possibilities °</p> <p>Discovering and analyzing technical, structural, functional and aesthetic solutions through innovative experiments in spatial forms. Bionic as a source of inspiration. The role of information exploration in the design process. Validating design principles in the design process. Product design: basic form studies, decisive form characteristics, aesthetic and technical interpretation and design of dimensions. Function analysis.</p>			
<b>Competences to be mastered:</b>			
<p>a) knowledge</p> <ul style="list-style-type: none"> <li>- Knowledge of basic design principles and methods, as well as major production technology procedures and operating processes.</li> <li>- Knowledge of the most important basic materials applied in the special area of product design, their production and their application criteria.</li> <li>- Knowledge of basic construction designs and their dimensioning basics.</li> <li>- Knowledge of the fundamental rules and technological limitations of shaping products, of striking a harmony between content and form.</li> </ul> <p>b) capabilities</p> <ul style="list-style-type: none"> <li>- Able to design the form and construction of relatively simple products by taking into account the limits of production technology, the costs expected, and impacts on the environment.</li> <li>- Able to transplant solutions evolved in nature into technical practice.</li> </ul> <p>c) attitude</p> <ul style="list-style-type: none"> <li>- Efforts to make self-education in the special area of industrial product design a continuous process in line with professional objectives.</li> </ul>
